Job Title: Application Developer

Location: Johannesburg

Closing Date: On-going Recruitment

Company Overview:

At Thoughtware we create, innovate and deliver complex solutions that integrate seamlessly with your core business systems. Creating and revolutionizing experiences using the latest technology which drives our success with your clients.

To meet business needs, leaders must align with an application development services partner that possesses a proven track record, a quality approach to delivering consistent results and the expertise required to drive successful outcomes.

We currently are looking for dedicated (Experienced and Inexperienced) Application Developers who are passionate about the industry and have the ability develop mobile and web applications for our clients.

Responsibilities & Duties:

- Responsible for the design, development and support of Web Services and produce industry-standard Web Applications.
- Responsible for the development, maintenance and enhancement of business intelligence solutions.

- Must be able to work on multiple projects at the same time.
- Strive to create visually appealing web and mobile applications that feature user-friendly design and clear navigation.
- Responsible for the design, development and support of Web services and Applications.
- Maintenance and Support of Systems
- Ensure and understand the user requirements as specified by the business analysts.
- Creating database schemas that represent and support business processes
- Constantly keeping up-to-date with modern software technologies.

Requirements:

- Bachelor's Degree in Information Technology.
- Relevant IT Development certification.
- Experienced in web technologies (HTML5, CSS 3, JavaScript, jQuery, Bootstrap, Responsive design.
- Experience in Microsoft Web stack technologies (MVC, C#, VB.net, razor, IIS, ASP.net, WCF/Web services, WebAPI)
- 0-1 years' experience in related field

How to Apply:
